

ADDING PIZZAZZ TO YOUR LEARN 9 COURSE

The Home page (known as the Module Page) option is new to HBU with Learn 9.

This page provides alerts and notifications based on your course needs. This page is also customized by the course role.

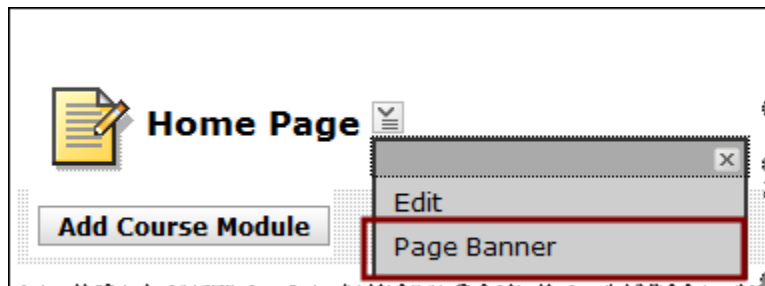

CUSTOMIZING YOUR HOME PAGE

You have the option to customize the page by adding modules desired. If you have imported a class from CE8 the Home page will be missing from your menu. Add it by clicking the + sign above the menu while edit mode is On. Choose Module page and customize by adding modules to the page. Publishers are beginning to integrate with Blackboard and they provide modules too.

ADD HEADER OR BANNER TO THE HOME PAGE.

With edit mode on click on Page Banner to customize the header using the Text Editor.

Getting Started with Learn 9

ADD A BANNER TO THE ENTRY PAGE

To add a banner to the Entry page that students first see when they log in click on lower menu below the course menu

Click on Customization > Style

SELECT COURSE ENTRY POINT FOR STUDENTS

A screenshot of the Blackboard course configuration interface. The 'Select Course Entry Point' section shows a dropdown menu set to 'Discussions'. The 'Select Banner' section is highlighted with a blue border and contains a text area for the banner, a 'Current Banner Image' label, and a 'New Banner Image' label with 'Attach File' and 'Browse My Computer' buttons. A 'Submit' button is at the bottom.
